As an experienced Frontend Web Developer, I have a track record of developing web applications that are not only user-friendly but also visually beautiful. With years of expertise, I've improved my skills in developing imaginative, responsive, and engaging websites that engage people and inspire involvement. In addition to my technical abilities, my leadership capabilities have enabled me to effectively oversee cross-functional teams, foster an innovative culture, and promote best practices in web development. I am an expert in many frontend frameworks, with an emphasis on responsive design and performance optimization. I'm currently searching for opportunities to put my skills to use and contribute to the success of exciting web development projects where I can create incredible digital experiences.

PROFESSIONAL EXPERIENCE

Frontend Developer   **April 2023 - Present**

AZminds Services Pvt. Ltd.

Accomplishments:

- Participated in the creation and upgrading of software programs, complying with project requirements and coding standards.
- Closely collaborated with team members to identify and resolve technical issues, ensuring efficient and dependable software performance.
- Enhanced efficiency, delivered quality solutions, and assisted with testing and debugging software applications.
- Actively participated in code reviews and offered insightful input to improve the quality and maintainability of the code.
- Strong problem-solving abilities and a dedication to enhancing software development processes were presented.

Associate Frontend Developer   **Nov 2022 - March 2023**

AZminds Services Pvt. Ltd.

Accomplishments:

- Assisted in producing high-quality software solutions by participating in coding, testing, and debugging tasks.
- Effectively worked with senior team members to analyze project requirements and contribute to the development process.
- Engaged actively in code reviews, identifying areas for improvement and bringing improvements into practice.
- Showed a proactive approach toward learning and obtaining new abilities, and maintaining current on developing technology and industry trends.
- Showed a dedication to producing stable and effective software solutions and a good work ethic.

Associate Frontend Developer   **Nov 2021 - Oct 2022**

Adhyaaya Digital Technologies Pvt. Ltd.

Accomplishments:

- Contributed to the creation of excellent software solutions by engaging in coding, testing, and debugging projects.
- Productively worked with senior team members to estimate project needs and make a contribution to the development phase.
- Participated in code reviews actively, seeing areas for development and implementing changes.
- Proactive in learning and acquiring new skills, as well as staying current on growing technologies and industry trends.
- Demonstrated a commitment to creating reliable and successful software solutions as well as a strong work ethic.

PROJECTS

YachtCloud – Yacht Listing and Management

YachtCloud is a SaaS application for yacht Managers that provides a feature-rich platform for efficient yacht listing and management. As a frontend developer, I created a visually attractive interface using Next.js and Material UI v4, alongside implementing technical SEO strategies to enhance indexing. Redux Saga was used to effortlessly interface with APIs and build crucial features such as yacht listing, country association, and manager and superadmin dashboards. The platform features powerful filtering options for quick yacht discovery, making it a one-stop shop for efficient yacht management.

QuickGPT – AI Chat and Upload Docs

QuickGPT is a state-of-the-art AI-powered platform designed for seamless text-based interactions. In my role as a frontend developer for QuickGPT, I took the lead in crafting an eye-catching and user-friendly interface. Leveraging Vite with Reactjs, Tailwind CSS, ShadcnUI, and TypeScript, I designed a visually stunning platform that users love to engage with. With real-time streaming integrated for AI responses, users can engage in natural language conversations effortlessly. Additionally, QuickGPT offers document upload capabilities, enabling users to analyze PDFs and documents directly within the platform.

Sentry-AI – AI Intruder Detector

Sentry-AI is an advanced intruder detection app built with Next.js, Tailwind CSS, ShadcnUI, TensorFlow.js, and OpenAI. I led the frontend development, crafting an intuitive interface. TensorFlow.js enables precise person detection via webcams, triggering real-time notifications and saving 30-second clips post-detection. Next.js and Tailwind CSS ensure a responsive design, while ShadcnUI adds elegance. OpenAI integration allows natural language interactions. Sentry-AI redefines security solutions, merging cutting-edge tech for enhanced safety and user experience.

1System – Laundry App

1System is a comprehensive laundry application designed for efficient laundry management. As the frontend developer, I crafted an appealing interface using Next.js and Material UI v4. Redux Saga facilitated seamless API integration, enabling the development of essential features like laundry listing, location association, and admin dashboards. The platform offers robust filtering options for quick laundry discovery, making it a go-to solution for efficient laundry management.

EDUCATION

2020-2023	**Islington College** BSc (Hons) in Networking and IT Security	**Degree** Second Class Honour

---

SKILLS

- Proficient in MERN stack (MongoDB, Express.js, React.js, Node.js).
- Frontend development: HTML5, HTMX, CSS, JavaScript, TypeScript.
- React.js ecosystem: Redux, Context API, React Router, React Query, etc.
- Backend development: Node.js, Express.js, RESTful APIs.
- Version control: Git, GitHub, GitLab.
- Package managers: npm, yarn.
- Testing frameworks: Jest, React Testing Library.
- Deployment and hosting: AWS, Vercel, Netlify, Firebase.
- Styling and UI Libraries: Material-UI, TailwindCSS, Emotion.js, Alpine.js, Styled Components, etc

- GraphQL
- Agile Methodologies
- Problem-solving
- Team Collaboration
- Time Management
- Adaptability
- Requirement Analysis
- Project Management
